Question 01: Summarize the Sindh Occupational Health and Safety Rules 2019.

[CLO 2]

Solution:

Sindh Occupational Health and Safety Rules 2019.

The Sindh Occupational Safety and Health Rules 2019 were made by the Government of Sindh in exercise of the powers conferred by sections 5, 7, 11, 12, 16, 17, 18 and 23 of the Sindh Occupational Safety and Health Act, 2017. These rules provide for occupational safety and health conditions at all workplaces for the protection of persons at work against risk of injury arising out of the activities at workplaces and for the promotion of safe, healthy, and decent working environment adapted to the physical, physiological, and psychological needs of all persons at work.

Some of the key provisions include definitions of terms such as "air receiver", "biological monitoring", "construction site", "construction work", "explosives", "health and safety equipment", "lifting equipment", and "manual labor". These rules also provide for the establishment of a Health and Safety Committee by the employer under the provisions of section 12 (1) (b). The rules also specify the maximum permissible pressure for certain equipment.
